#### INTERNATIONAL CONFERENCE ON SCIENCE AND TECHNOLOGY OF THERMALISM

##### Water quality

- Water sources and captation
- Physical-chemical properties
- Chemical-biological contaminants
- Safety and quality assessment

##### New technologies

- Technical installations and management
- Sanitation and biological risks
- Advanced water treatments
- Maintenance
- Nanotechnologies and innovation

##### Thermalism evolution

- Biomedical engineering
- Innovative caring protocols
- Traditional caring protocols and methods
- Good practices, technology and domotics
- Wellness and leisure activities
- Rehabilitation and prevention

##### Hotel, tourism and legal aspects

- Economics of wellness
- Hotel and tourism exploitation
- Setting quality standards

#### HEALTHY WORLD CONFERENCE 2016

##### Healthy body

- Wellness, sport and nutrition
- Sport technology
- Motor control and coordination
- Sensori-motor interaction
- Physical-chemical properties
- Chemical -biological contaminants
- Safety and quality assessment

##### Healthy mind

- Brain and cognition
- Cognitive performances evaluation

##### Healthy environment

- Occupational health and safety
- Risk assessment
- Territorial planning and infrastructures
- Environmental factors and climate change

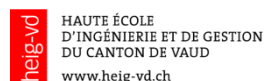

##### Healthy population

- Health care anywhere, anytime
- Minorities, special target groups
- Network managed health care
- Telegerontechnology and AAL
- Distant learning in healthcare
